The Oncology Nursing Society is accredited as a provider of continuing nursing education by the American Nurses Credentialing Center's COA.

Welcome to the fall issue of the ONS Education Catalog. Please take time to browse this issue and imagine the many ways you will benefit from these quality offerings and influence your daily practice. Note the valuable contact hours you will receive for participating, and remember to share these programs with your coworkers so they can also take advantage of these educational opportunities.

**Discounted group registration is available for all ONS webcourse offerings.**

The Oncology Nursing Society is accredited as a provider of continuing nursing education by the American Nurses Credentialing Center's COA.

ONS is approved as a provider of continuing education by the California Board of Registered Nursing, Provider #2850.

Accreditation as an ANCC Commission provider refers only to its CNE activities and does not imply ANCC Commission on Accreditation endorsement of any commercial products.

The contact hours earned from these educational opportunities qualify for initial oncology nursing certification and renewal via ONC-PRO. Visit [www.oncc.org](http://www.oncc.org) for complete details on oncology nursing certification.

# ONS Continuing Nursing Education Is Better Than EVER!

## Use ONS University for Your Continuing Nursing Education!

ONS University is a unique platform for enhancing your knowledge and receiving CNE credit. This powerful system delivers your online education interactively in an exciting and effective way.

The benefits of ONS University extend beyond your immediate course participation. You can *really* get involved in the subjects you're interested in, socialize and interact with those who share your interest, plus use features that help you stay organized—all from one place.

## Interactive Activities Connect You to Education and Other Students

- Discussion boards and chat forums allow you to interact and network with fellow students.
- Interactive learning activities ensure you understand the content.
- Downloadable resources enhance your learning.
- Immediate feedback on post-tests confirms your success.

## Get the Free Demo to Simply Learn All ONS University Has to Offer

To get completely familiar with the system, contact ONS Customer Service at [customer.service@ons.org](mailto:customer.service@ons.org) and ask to be enrolled in the *free* ONS University Demo Course that includes a video tutorial.

For general information regarding the ONS University, visit [www.ons.org/CNEcentral/ONSUniversity](http://www.ons.org/CNEcentral/ONSUniversity).

# ONS CONFERENCES

# 04

## ONS 37th Annual Congress May 3–6, 2012 • New Orleans, LA

### Get Jazzed for the #1 Conference for Cancer Nurses!

It's not too early to register for the ONS 37th Annual Congress this May in the Big Easy. May might seem like it's a ways away, but why wait? Make your plans now for the biggest and best oncology nursing conference. At Congress, you'll get the latest cancer nursing education, connect to more than 4,000 of your peers, and celebrate the work that you do each and every day.

### Customized Scheduling Let's You March to Your Own Beat

Everyone has different educational needs. Make sure your conference schedule is in tune with yours. Customize your days by picking and choosing the sessions that interest you. Sessions are categorized by topic and practice level, making it simple to individualize your experience.

### Earn More Than 15 Contract Hours at Congress

Worth more than 15 contact hours, Congress is the #1 conference for cancer nurses. You'll learn about

hot topics in cancer care, including survivorship, chemotherapy, symptom management, radiation, patient education, disease management, and more.

### Hit All the High Notes When You Register by the End of the Year

Congress promises to deliver top-notch education! Make your plans early and register now. Remember, if you register by December 31, 2011, you'll save \$100 through an early-bird discount and be entered into a drawing for a \$500 Visa gift card.

### Session Recordings at the ONS Live Learning Center

Can't find the time or money to make it to a national conference? You can access content from the ONS Congress, Institutes of Learning, and Advanced Practice Nursing Conference and earn CNE\* from select sessions with virtual conferences. Sessions are captured live and placed online, where you can view them at your convenience. Experience these multimedia recreations with synchronized slides, handouts, and more. Download the sessions in MP3 format to your iPod or other MP3 player to listen on the go. You'll never need to miss another session!

*Learn more today by visiting [www.ons.org/education](http://www.ons.org/education).*

[www.ons.org/education](http://www.ons.org/education)

# Brand NEW!

## **ONS Advanced Oncology Nursing Conference • 2012** November 16–18, 2012 • Phoenix, AZ

Coming in 2012, the new conference will focus on disseminating nursing research and identifying ways to translate evidence into practice and improve patient care. The program content will be geared toward nurse researchers and advanced practice nurses who are designing research studies, identifying the evidence, and translating the evidence to enhance the care of patients with cancer.

If you're an advanced oncology nurse, you don't want to miss this inaugural event, which features intermediate- to advanced-level clinical content as well as preconference skills workshops and a grant-writing program. Its interdisciplinary focus makes it the perfect learning and networking event for APNs and oncology nurse researchers as well as those in nononcology settings, including nurse practitioners, researchers, clinical trials nurses, and graduate students.

## **2011 REGIONAL CONFERENCES**

### **Primary Care Issues in Cancer Care**

**November 18–19 • Hartford, CT**

This conference is one day of education focusing on treating patients with not just cancer but other comorbidities as well. Complete information is available at [www.ons.org/primarycare2011](http://www.ons.org/primarycare2011).

### **Survivorship Issues in Cancer Care**

**December 1–2 • San Francisco, CA**

Held regionally, this conference includes one day of education focusing on treating cancer survivors. Complete information is available at [www.ons.org/survivorship2011](http://www.ons.org/survivorship2011).

---

The Oncology Nursing Society is accredited as a provider of continuing nursing education by the American Nurses Credentialing Center's COA.

## ADVOCACY

**Updated!**

### Advocacy 101: Making a Difference

This significantly updated course provides you with the tools you need to effectively communicate your ideas and concerns to legislators in order to influence decisions that impact cancer care before they are finalized. You will learn about the legislative process, how to find out key information about your legislators, tips for communicating with your legislators and advocacy resources.

**Contact hours: 4.7 • FREE**

**New!** **Advocacy 201: Taking It to the Next Level**

Advocacy 201: Taking It to the Next Level is a free course for nurses who have a basic understanding of health policy advocacy and want to become more involved with impacting public policy related to healthcare issues. Through a series of lessons and practical assignments, you will develop the skills you need to expand your health policy advocacy beyond the basics. If you don't already have a basic knowledge of the legislative process and health policy advocacy, you may want to complete Advocacy 101 (above) to get the full benefit of this course.

**Contact hours: 6.2 • FREE**

## CANCER BASICS

### Cancer Basics

Professionals throughout the healthcare industry will benefit from this popular course that provides current information on the fundamentals of cancer care. The course covers disease statistics; cell structure and the cell cycle; current understanding of the many cancer treatments, including surgery, radiation, chemotherapy, and biotherapy; and patient care management from diagnosis through end of life. Learn about topics that affect your oncology practice.

**Contact hours: 6.4**

**Cost: ONS Member–\$50**

**ONS Student Member–\$35 • Nonmember–\$80**

### Cancer Biology

Keep up to date with the latest information on how cancer develops and new targeted therapies to treat the disease. Gain new knowledge from this important program that will help you provide better patient care.

**Contact hours: 3**

**Cost: ONS Member–\$30 • Nonmember–\$40**

**Discounted group registration is available for all ONS webcourse offerings.**

## CERTIFICATION PREP

### OCN® Review

Want some help preparing for your OCN® examination? You can get detailed review information, practice tips, and test-taking strategies through this interactive program. It's an in-depth review of the information that will most likely appear on your certification test, and is based on the OCN® test blueprint and test references.

**Contact hours: 50**

**Cost: ONS Member–\$160 • Nonmember–\$180**

### New for 2012

### Advanced Oncology Nursing Certification Review Course

A brand new, revised and updated course is being developed for 2012 that will be based on the AOCNP® and AOCNS® certification examination blueprints. This one course will include content unique to each APN role to assist advanced practice oncology nurses in preparing for their role-specific certification tests. More information will be available soon at [www.ons.org/education](http://www.ons.org/education), about this convenient, affordable, and self-paced course.

**Contact hours: TBD**

**Cost: TBD**

# COMPLEMENTARY AND INTEGRATIVE THERAPY

## **New!** CAM and Cancer Care: What Oncology Nurses Need to Know

Many Americans include some type of complementary and integrative medicine (CAM) in their daily health care regimen, therefore, oncology nurses need to be familiar with CAM practices to provide the best care and advice for their patients. ONS is now offering CAM and Cancer Care: What Oncology Nurses Need to Know to provide timely information about CAM and its use by people diagnosed with cancer.

Through a series of modules and learning activities, you will gain the knowledge needed to perform assessments, interpret data regarding safe use of CAM, and be able to incorporate the information you've learned into your oncology practice.

The course will prepare you to

- Execute integrative assessments to compliment routine patient assessments.
- Identify possible contraindications and interactions between an individual's concurrent CAM and conventional medical therapies.
- Synthesize safety and efficacy data, patient integrative assessment data, and practitioner referrals into a plan of care for the individual with cancer who chooses to use CAM therapies.

For your convenience, you may access the course and complete the activities at any time during the period that your class is active.

**Contact hours:12**

**Cost: ONS Member-\$80 • Nonmember-\$108**

The Oncology Nursing Society is accredited as a provider of continuing nursing education by the American Nurses Credentialing Center's COA.

# CHEMOTHERAPY & BIOTHERAPY/SAFE HANDLING

08

## Chemotherapy and Biotherapy Course

Designed to encourage consistency in chemotherapy administration, the ONS Chemotherapy and Biotherapy Course is offered by trained nurses at locations throughout the United States. The two-day course focuses on the theoretical knowledge base needed to administer these treatments. RNs who successfully complete the course, post-test, and evaluation receive a personalized provider card that indicates they have taken the course and obtained didactic information concerning the administration of chemotherapy and biotherapy agents. The card is valid for two years and can be renewed by completing the Chemotherapy and Biotherapy Renewal Course.

**Contact hours:** 13.5  
**Cost:** varies by course

## Chemotherapy and Biotherapy Renewal Course

This self-paced, web-based course is designed for nurses who want to renew their ONS Chemotherapy and Biotherapy provider card. It offers information on practice issues, including error prevention and safe handling. The course also features case studies on area-under-the-curve dose calculations and symptom management, as well as information on newly approved medications. You'll have 24-hour access to the course, a monitored discussion board, and you can download course materials for future reference.

**Contact Hours:** 2.5  
**Cost:** ONS Member-\$29  
Nonmember-\$34

## Chemotherapy and Biotherapy Update

The Chemotherapy and Biotherapy Update provides detailed information on these treatments. Through this course, you will have the opportunity to update your chemotherapy knowledge and receive CNE credit. However, you will not receive an ONS provider card. To receive a provider card, you must successfully complete the two-day ONS Chemotherapy and Biotherapy Course.

**Contact hours:** 2.3  
**Cost:** ONS Member-\$39  
Nonmember-\$49

## **New!** Oral Therapies for Cancer

The increasing availability of oral antineoplastic agents has shifted the delivery of chemotherapy from the infusion center or hospital setting to the home. Patient adherence then becomes a concern and may be influenced by scheduling and reimbursement issues, drug and food interactions, and toxicity management. This course explores the shift to oral therapy and provides you with tools for managing patients receiving these medications. Learn more about the advantages and disadvantages of the oral route for antineoplastic administration, agents used, their mechanisms of action, administration issues, unique monitoring issues, and more.

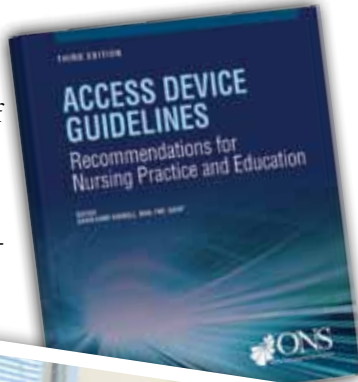

**Contact hours:** 9.09  
**Cost:** ONS Member-\$80  
Nonmember-\$115

## Access Devices: The Virtual Clinic

Raise your level of expertise in access device management through Access Devices: The Virtual Clinic. Here, you will be part of a unique experience that uses virtual simulations to examine real-life situations and challenges. This faculty-mediated course consists of online instruction, course activities, review activities, and more. You will work along with the text *Access Device Guidelines: Recommendations for Nursing Practice and Education* (3rd ed.), and engage in self-paced reading assignments, activities, and learning opportunities.

**Contact hours: 15**  
**Cost: ONS Member-\$99**  
**Nonmember-\$139**

## Newly Revised Book and Course Safe Handling of Hazardous Drugs

Now, more than ever, the need for nurses to focus on safe handling education is vital. If you or your staff administer chemotherapy or handle any hazardous drugs, the recently updated Safe Handling of Hazardous Drugs Course is for you! It provides you with guidelines and techniques needed to safely handle these medications. Working along with the newly released *Safe Handling of Hazardous Drugs* (2nd ed.), you'll engage

in self-paced reading

assignments, activities, and learning opportunities throughout the course.

**Contact hours: 8.8**  
**Cost: ONS Member-\$99 • Nonmember-\$139**

The Oncology Nursing Society is accredited as a provider of continuing nursing education by the American Nurses Credentialing Center's COA.

## CLINICAL TRIALS

### **Shedding Light on Clinical Research: An Introduction to Clinical Trials Nursing**

Clinical trials are crucial to the development of improved methods of preventing, detecting, and treating cancer. Oncology clinical trials nurses play a unique role in the conduct of these trials and are essential to the success of clinical research. This course provides a comprehensive introduction to cancer clinical trials. Focusing on how to implement a research protocol from initiation to conclusion, you'll learn how to be a clinical trials nurse in any setting. Interactive activities will help you apply what you learn to different scenarios.

**Contact hours: 12.6**

**Cost: ONS Member-\$99 • Nonmember-\$139**

## GERONTOLOGY

### **New! Caring for the Older Adult With Cancer Trainer Course**

This new train-the-trainer offering was developed for nurses with a working knowledge of oncology and gerontology care issues and it prepares them to teach nurses in their areas to better care for this growing patient population. Here, nurses participate in virtual discussions and learning activities, develop teaching strategies, and identify a personal dissemination plan for teaching the Caring for the Older Adult With Cancer program. Teaching materials are provided to those who successfully complete the course. *This program is funded through a grant from Hartford Institute for Geriatric Nursing and New York University.*

**Contact hours: 18.75**

**ONS Member-\$80 • Nonmember- \$100**

## GENETICS

### **New! Cancer Genetics 101**

The Cancer Genetics 101 course provides oncology nurses with a comprehensive overview of cancer genetics and gives specifics about the importance of knowing when to refer a patient for genetic counseling and related resources. The program is for those who want to learn more about genetic influences on cancer, cancer risk assessment, and hereditary cancer syndromes. This course offers you a better understanding of genetic and genomic concepts and your ability to incorporate genetics and genomics into your oncology practice.

**Contact hours: 16**

**Cost: ONS Member-\$100 • Nonmember-\$140**

### **Genetics Online Education Series**

As a nurse today, a basic foundation in genetics is no longer an option, it is a necessity. The ONS Genetics Online Education Series gives you the opportunity to gain a strong foundation in genetics. Learn how cancer and genetics are related and get the tools to provide accurate information to your patients regarding genetic risks for cancer or the use of gene therapy as a cancer treatment. This course will significantly increase the general genetics knowledge base of new oncology nurses and is also an excellent source of review information for experienced nurses.

**Contact hours: 7.8**

**Cost: ONS Member-\$79 • Nonmember-\$99**

**Discounted group registration is available for  
all ONS webcourse offerings.**

## EVIDENCE-BASED PRACTICE

### Developing Skills for Evidence-Based Practice

Get the practical tools and hands-on experience needed to apply current evidence to your practice setting. Through a series of lessons and application activities, nurses with a wide variety of research and evidence-based practice experience will learn how to identify, evaluate, and apply research to oncology clinical challenges.

**Contact hours: 7.3**

**Cost: ONS Member-\$69 • Nonmember-\$95**

## PSYCHOSOCIAL CARE

### Integrating Psychosocial Care Into Oncology Practice

The number of people touched personally by cancer continues to grow; hence, those experiencing emotional distress and needing psychosocial support are also increasing. This faculty-led program addresses cultural, spiritual, and caregiver issues, along with care implications related to anxiety, depression, sexual alterations, cognitive dysfunction, fatigue, and sleep disturbances. Through facilitated discussion postings, interactive learning activities, and a post-test, you'll enhance your knowledge of a variety of psychosocial topics and the resources available to you and your patients.

**Contact hours: 8.25**

**Cost: ONS Member-\$69 • Nonmember-\$100**

The Oncology Nursing Society is accredited as a provider of continuing nursing education by the American Nurses Credentialing Center's COA.

## REIMBURSEMENT AND CODING

### Reimbursement for Nurses and Managers: The Keys to Successful Practice *Plus* Competency Test

Enhanced with additional detailed modules of critical and cutting-edge information, more practices scenarios, and a wealth of toolkit additions, this online course guides staff nurses and their managers through the reimbursement maze. The detailed practice scenarios guide you through common coding pitfalls, safe documentation practices, and critical information on fraud and abuse and how to avoid them. *Plus*, you will validate your knowledge and gain valuable additional practice with the included Practice What You Know competency test.

**Contact hours: 3.5**

**Cost: ONS Member-\$40 • Nonmember-\$50**

## SYMPTOM MANAGEMENT

### Symptom Management

This highly interactive course explores the pathophysiology of seven symptoms associated with cancer and its treatment: delirium, nutrition, oral mucositis, pain, peripheral neuropathy, sleep/wake disturbances, and thrombocytopenia. The course uses graphic animation to describe how symptoms occur, their effects in the body, and their outward signs. You'll apply what you learn to nursing assessments to prioritize and identify patients at high risk. You'll also learn to use evidence-based management strategies during clinical case studies.

*Supported, in part, by an educational grant from Wyeth Pharmaceuticals and sanofi-aventis*

**Contact hours: 4.6**

**Cost: ONS Member-\$69 • Nonmember-\$80**

## SITE-SPECIFIC CANCER SERIES

# 12

www.ons.org/education

### Breast Cancer

Get the most up-to-date information and evidence-based knowledge, including diagnosis and treatment of breast cancer and the psychosocial and genetic aspects of caring for patients with the disease. Based on the recently updated second edition of the ONS publication, *Site-Specific Cancer Series: Breast Cancer*, the course covers a wide realm of topics pertaining to this debilitating disease.

*Supported through an educational grant from the Breast Cancer Fund of the National Philanthropic Trust.*

**Contact hours: 20**  
**Cost: ONS Member—\$99**  
**Nonmember—\$139**

### Gastrointestinal (GI) Cancers

This site-specific cancer course examines the anatomy and physiology of the gastrointestinal (GI) tract, biology, prevention and screening, esophageal and gastric cancers, colorectal and anal cancers, and nursing care for patients with GI cancers. You will also get clinical information to understand the complexities of the diagnosis, treatment, symptom management of various GI cancers, and the use of evidence-based practice. Working along with the accompanying eBook *Site-Specific Cancer Series: Gastrointestinal Cancers*, the course provides clinical information to help you understand the complexities of screening, prevention, diagnosis, treatment, symptom management, and the use of evidence-based practice.

**Contact hours: 8.5**  
**Cost: ONS Member—\$75**  
**Nonmember—\$105**

### Head and Neck Cancer

This comprehensive course provides the kind of cutting-edge information that you need to truly understand the many complexities of head and neck cancer diagnosis, treatment, and symptom management. Each course module builds on the previous one, providing in-depth information about this challenging diagnosis. Students will work along with the eBook *Site Specific Cancer Series: Head and Neck Cancer*.

*Supported by an educational grant from Genentech and sanofi-aventis*

**Contact hours: 20**  
**Cost: ONS Member—\$99**  
**Nonmember—\$139**

### Prostate Cancer

This course offers evidence-based, state-of-the-art knowledge regarding the comprehensive care of patients with prostate cancer. Using the eBook, *Site-Specific Cancer Series: Prostate Cancer*, the course outlines pathophysiology, staging, treatment options, symptom management, and late effects.

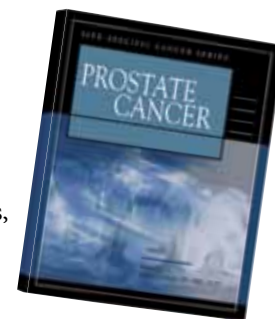

**Contact hours: 13**  
**Cost: ONS Member—\$75 • Nonmember—\$105**

### Lung Cancer

This course offers education to enhance learning on the current management of lung cancer. Based on the ONS publication *Site-Specific Cancer Series: Lung Cancer*, the course will address biology and therapeutic implications, patient assessment, management of non-small cell lung cancer and small cell lung cancer, survivorship issues, and much more.

*Supported through an educational grant from AstraZeneca.*

**Contact hours: 14.2**  
**Cost: ONS Member—\$99**  
**Nonmember—\$139**

## Skin Cancer

Skin cancer is the most common type of cancer in the United States. More than one million cases are diagnosed each year and, according to current estimates, more than 40% of Americans who live to age 65 will have skin cancer at least once. Learning the characteristics of the most common types of skin cancer is essential to staying healthy. Working along with the text *Site-Specific Cancer Series: Skin Cancer*, this course will help you gain a comprehensive understanding of skin cancer, prevention, detection, and various treatments.

**Contact hours: 13**

**Cost: ONS Member-\$99 • Nonmember-\$139**

## **New!** Advances and Updates in Gastrointestinal Cancers: An Adjunct to the ONS Site-Specific Series Course

The Advances and Updates in Gastrointestinal Cancers Course introduces oncology nurses to new and advanced concepts, as well as updated care issues, related to the treatment of patients with gastrointestinal (GI) cancers. This course was designed to meet the needs of intermediate generalist and advanced-level oncology nurses involved in the delivery of quality patient care. Ideally, those taking this course will have already completed the ONS Site-Specific Cancer Series: Gastrointestinal Cancers Course.

**Contact hours: 4.4**

**Cost: ONS Member-\$30 • Nonmember-\$40**

## SPEAKER TRAINING

### Speaker Training

Now, you can deliver nursing content in a way that is effective, meaningful, and memorable. This self-paced program is ideal for healthcare professionals who want to refine their style and for new speakers who want to build a solid foundation.

See how you can improve your speaking skills, step by step. If you have a desire to learn how to prepare and deliver top-quality and balanced presentations that specifically focuses on the delivery of nursing content, then this interactive course is for you!

**Contact hours: 4.7**

**Cost: ONS Member-\$70 • Nonmember-\$80**

## TREATMENT

### Live Course

#### Treatment Basics: Antineoplastic Therapy in the Nononcology Setting

ONS Chemotherapy and Biotherapy Course trainers can present this course to nurses working outside the hematology and oncology setting. It focuses on non-oncology use, administration, monitoring, and safety concerns of many antineoplastic agents. Visit [www.ons.org/education](http://www.ons.org/education) for a list of trainers, cities, and dates.

**Contact hours:** 4

**Cost:** varies by course

### For Trainers Only

#### Treatment Basics Online Trainer Course

ONS Chemotherapy and Biotherapy Course trainers may learn to teach the Treatment Basics: Antineoplastic Therapy in the Nononcology Setting Course to nurses working outside the hematology and oncology setting. During this course, for trainers only, you will discuss the delivery of antineoplastic medications in nononcology settings, identify key elements in teaching students about the administration of antineoplastic agents, describe methods used to reinforce participant learning, and more.

*Only trainers in good standing can take the online course and teach the Treatment Basics Course.*

**Contact hours:** 2.6

**Cost:** ONS Member-\$55

### Fundamentals of Blood and Marrow Transplant

Approximately 50,000 blood and marrow transplantations (BMTs) for malignant and nonmalignant diseases are performed annually, and the care for those receiving allogeneic, autologous, and syngeneic transplantation requires specialized education.

This evidence-based course prepares oncology nurses to care for patients undergoing BMT. Here, you'll receive a comprehensive set of resources for use in setting up and enhancing BMT programs and review advanced concepts and future directions of BMT.

**Contact hours:** 19

**Cost:** ONS Member-\$99

**Nonmember-\$139**

## PATIENT RESOURCES

### TheCancerJourney.org

Patients and family members can get valuable symptom management information as well as other resources to help them through the cancer experience at TheCancerJourney.org. The site covers evidence-based information on treatment, side effects, survivorship, caregiver issues, and symptom management. New features include “Traveling Companions,” a blog written by oncology nurses and caregiver experts, and an “Ask a Nurse” feature for patients and family members to post or confidentially submit a question to an oncology nurse.

### Hygeia Media

Hygeia Media publishes books for the general public covering a wide range of health matters. In 2009, the first Hygeia Media books were published: *Woman Cancer Sex* and *Man Cancer Sex* by Anne Katz and *Coping With Cancer: A Patient Pocket Book of Thoughts, Advice, and Inspiration for the Ill*.

For more information or to order, visit the publications section of [www.ons.org](http://www.ons.org), or you can purchase them through your local bookstore or online at [amazon.com](http://amazon.com).
