

Please consider applying for the 2010 Oncology Nursing Society Evidence-Based Practice Advisory Panel. The panel meets via conference call on an “as needed” basis to advise and provide consultation to me and the research team regarding evidence-based practice (including ONS PEP) ideas and issues – we initiate conference calls and/or electronic discussion when we learn of an issue or have a question that we would like to discuss with ONS members with expertise in evidence-based practice. Issues arise from the members and from questions from ONS and nurses and organizations outside of ONS. We often need to discuss strategies related to the ongoing development of evidence-based practice initiatives and ONS PEP resources. There are usually 3-5 conference calls/year.

Please go to the link below and complete the advisory panel application form (check research and evidence-based practice advisory panel on the form) <http://www.ons.org/Membership/Participate/panels> AND while you are in the system, please update your ONS profile at <https://profile.ons.org> , including the 2010 *newly updated* Demographics and Optional Demographics sections!

Please complete your application no later than January 15, 2010.

Please also send an e-mail to research@ons.org letting us know that you have completed or updated your application and answer the following two questions in the e-mail body:

- 1) Describe three strengths that you would bring to the ONS Evidence-Based Practice Advisory Panel.
- 2) Describe your past experiences that demonstrate your ability to work as a member of an advisory panel (e.g. national and/or local ONS activities, roles in other professional and community organizations)

If you have questions, please contact Jenny Brown, ONS Research Grant Specialist, at 412-859-6298 or Gail Mallory, ONS Director of Research, at 412-859-6308.
