

SAMPLE THANK YOU EMAIL TO SENATORS

Dear Senator _____,

Thank you so much for taking time to meet with me and other oncology nurses from the Oncology Nursing Society (ONS) to talk about four bills to greatly improve access to quality oncology care for patients suffering with cancer. As we discussed, ONS strongly supports the following pieces of bipartisan legislation:

- **S. 693 - the Palliative Care Hospice Education and Training Act (“PCHETA”)** would authorize grants for nurse and health professional training in palliative care; promote NIH research in palliative care; and disseminate information to educate the public on the benefits of palliative care. This bill recently passed the House of Representatives by a unanimous vote.
- **S. 497, the Lymphedema Treatment Act** would require Medicare to cover compression garments and other supplies to treat painful swelling from lymphedema, which can be caused from cancer.

Additionally, ONS seeks Senate sponsorship and support for companion legislation to these bipartisan House bills:

- **H.R. 1409, the Cancer Drug Parity Act** would ensure that patient cost-sharing for **oral** anti-cancer drugs is no less favorable than patient cost-sharing for anti-cancer drugs that are injected or administered intravenously and already covered by private group or individual health insurance plans.
- **H.R. 5160, the Cancer Care Planning and Communications Act** would require Medicare to reimburse physicians and nurse practitioners for time spent preparing written cancer treatment and survivorship plans.

Thank you for your support and consideration. If you have any questions, please contact ONS Director of Government Affairs Dede Sweeney at dsweeney@ons.org.

Sincerely,

SAMPLE THANK YOU EMAIL TO SENATE STAFF

Dear _____,

Thank you so much for taking time to meet with me and other oncology nurses from the Oncology Nursing Society (ONS) to talk about four bills to greatly improve access to quality oncology care for patients suffering with cancer. As we discussed, ONS strongly supports and urges Senate passage of the following pieces of bipartisan legislation:

- **S.693 - the Palliative Care Hospice Education and Training Act (“PCHETA”)** would authorize grants for nurse and health professional training in palliative care; promote NIH research in palliative care; and disseminate information to educate the public on the benefits of palliative care. This bill recently passed the House of Representatives by a unanimous vote.
- **S. 497, the Lymphedema Treatment Act** would require Medicare to cover compression garments and other supplies to treat painful swelling from lymphedema, which can be caused from cancer.

Additionally, ONS seeks Senate sponsorship and support for companion legislation to these bipartisan House bills:

- **H.R. 1409, the Cancer Drug Parity Act** would ensure that patient cost-sharing for **oral** anti-cancer drugs is no less favorable than patient cost-sharing for anti-cancer drugs that are injected or administered intravenously and already covered by private group or individual health insurance plans.
- **H.R. 5160, the Cancer Care Planning and Communications Act** would require Medicare to reimburse physicians and nurse practitioners for time spent preparing written cancer treatment and survivorship plans.

Thank you for your support and consideration. If you have any questions, please contact ONS Director of Government Affairs Dede Sweeney at dsweeney@ons.org.

Sincerely,

SAMPLE THANK YOU EMAIL TO HOUSE MEMBER:

Dear Rep. _____,

Thank you so much for taking time to meet with me and other oncology nurses from the Oncology Nursing Society (ONS) to talk about four bills to greatly improve access to quality oncology care for patients suffering with cancer.

First, ONS thanks you and the House for recently passing **H.R. 1676 - the Palliative Care Hospice Education and Training Act!** This vital legislation would authorize grants for nurse and health professional training in palliative care; promote NIH research in palliative care; and disseminate information to educate the public on the benefits of palliative care.

Additionally, ONS strongly supports the following bipartisan legislation:

:

- **H.R. 930, the Lymphedema Treatment Act** would require Medicare to cover compression garments and other supplies to treat painful swelling from lymphedema, often caused by cancer treatments.
- **H.R. 1409, the Cancer Drug Parity Act** to ensure that patient cost-sharing for **oral** anti-cancer drugs is no less favorable than patient cost-sharing for anti-cancer drugs that are **injected** or administered **intravenously** and already covered by private group or individual health insurance plans.
- **H.R. 5160, the Cancer Care Planning and Communications Act** would require Medicare to reimburse physicians and nurse practitioners for time spent preparing written cancer treatment and survivorship plans to encourage provider and patient communications and shared decision-making.

Thank you again for your time. If you have any questions, please contact ONS Director of Government Affairs Dede Sweeney at dsweeney@ons.org.

Sincerely,

SAMPLE THANK YOU EMAIL TO HOUSE STAFF:

Dear _____,

Thank you so much for taking time to meet with me and other oncology nurses from the Oncology Nursing Society (ONS) to talk about four bills to greatly improve access to quality oncology care for patients suffering with cancer.

First, ONS thanks your boss and the House for recently passing **H.R. 1676 - the Palliative Care Hospice Education and Training Act!** This vital legislation would authorize grants for nurse and health professional training in palliative care; promote NIH research in palliative care; and disseminate information to educate the public on the benefits of palliative care.

Additionally, ONS strongly supports the following bipartisan legislation:

:

- **H.R. 930, the Lymphedema Treatment Act** would require Medicare to cover compression garments and other supplies to treat painful swelling from lymphedema, often caused by cancer treatments.
- **H.R. 1409, the Cancer Drug Parity Act** to ensure that patient cost-sharing for **oral** anti-cancer drugs is no less favorable than patient cost-sharing for anti-cancer drugs that are **injected** or administered **intravenously** and already covered by private group or individual health insurance plans.
- **H.R. 5160, the Cancer Care Planning and Communications Act** would require Medicare to reimburse physicians and nurse practitioners for time spent preparing written cancer treatment and survivorship plans to encourage provider and patient communications and shared decision-making.
