

ONCOLOGY POLICIES & PROCEDURES

The Oncology Nursing Society (ONS) is the source for evidence-based standards and guidelines. Editor Dolores M. Esparza, RN, MS, has contracted with ONS to produce a set of policies and procedures based on ONS evidence-based standards and guidelines. You can reference these policies as you develop and revise your own internal policies and procedures.

Oncology Policies & Procedures include:

- Continuity of care during a disaster
- Chemotherapy competency
- Management of acute hazardous drug exposure
- Patient education
- Patient safety and infection control
- Preassessment and reassessment of patients receiving chemotherapy
- Quality improvement
- Telephone triage, and
- Job descriptions for nursing roles.

For more details or to obtain a quote for your institution or practice, contact ONS at licensing@ons.org.
