The following changes have been made in the e-book and will be made in the second and subsequent printings of the text:

Errata

page 53: Products such as aloe vera, Biafine®, calendula, hyaluronic acid, sucralfate and its derivatives, and oral enzymes have insufficient evidence to recommend for use in reducing dermatitis (Chan et al., 2019; Fenton-Kerimian et al., 2015; Fisher et al., 2000; Gomes de Mensêses, Diniz dos Reis, Silva Guerra, De Luca Canto, & Barros Ferreira, 2018; Sharp et al., 2013; Wong et al., 2013; Yee et al., 2018).
