Abstract Template

- Copy and paste the Abstract Title in the first field of the submission system.
- Complete all other required information to continue proceeding with the submission.
- Copy and paste the body of this document into the Abstract Text section (do not include the title in this section).
- Total word count, including headings, must not exceed 385 words.
[Note: Remove the descriptions within the brackets before completing your abstract.]
- Be sure to complete the disclosures section and reach the confirmation screen to ensure your abstract is submitted.
- Save this completed document to your files for easy retrieval when working on your poster or podium presentation. You will not be able to access your abstract from the system after the abstract submission deadline.

Title [Explain the project] – do not include in body of submission

Background/Significance

[What is the background of your problem?]

Purpose

[What problem are you trying to solve?]

Methods

[Describe the design of your research or the interventions you were studying.]

Results

[What did you find? Include data. You may include a table or figure as a .jpeg or .png as an additional attachment]

Discussion

[Conclusions. What do you want others to know? Did it work? Would you do something differently?]
