

Dear

To advance the care provided at our institution, I am requesting to attend the Oncology Nursing Society's signature conference, the 49th Annual ONS Congress®, in Washington, DC, on April 24–28, 2024.

ONS Congress is the largest conference dedicated to oncology nursing. It features more than 40 educational sessions led by interprofessional experts on the latest developments in our field, numerous opportunities to network with other nursing leaders to learn how they are improving processes at their institutions, and cutting-edge information about new products and services to benefit our patients.

Throughout the conference, I can earn up to approximately 25 nursing continuing professional development (NCPD) contact hours via educational sessions and even more from the hundreds of posters and project presentations. The diverse concurrent track sessions enable me to curate my own itinerary based on our educational needs, making it an efficient use of our continuing education budget and my time away from work. In addition, I will be able to share the knowledge I gain with colleagues to benefit our institution and have an immediate and direct impact on our patient care and outcomes.

I've attached a detailed cost breakdown and would be happy to review the conference schedule with you to determine which sessions will be the most valuable for me to attend. I have identified some topics of interest that I feel are particularly beneficial for our team:

- _____
- _____
- _____

I hope you're in agreement—the 2024 ONS Congress is a wise investment and should not be missed. Thank you for your consideration of this request.

If you would like more information about ONS Congress, visit n.ons.org/24congress1.

Sincerely,

Oncology Nursing Society

125 Enterprise Drive • Pittsburgh, PA 15275-1223

ONS Congress 101

New to ONS Congress?

Don't miss ONS Congress 101 for tips on making the most of the five-day conference!

6–7:30 pm

Industry-Supported Dinner Symposia

Thursday, April 25

6–7:30 am

Industry-Supported Breakfast Symposia

8–9:30 am

POWER

Opening Ceremony and Keynote Address: I'm Not Limping. That's Swagger!

Two-time pediatric brain tumor and stroke survivor, Kelsey Tainsh, BS, shares her remarkable journey, including the story of her relationship with her nurses along the way. She provides an amazing patient account, while offering a unique and actionable message on gratitude and perspective. Her story is a reminder of the difference nurses make in the lives of their patients every day. You'll leave with a resilient new mindset and a fresh appreciation for the gift of work, accomplishment, and relationships we all share.
