This listing classifies World Bank member countries and other economies with populations of more than 30,000. For the 2017 fiscal year, low-income economies are defined as those with a GNI per capita, calculated using the World Bank Atlas method of \$1,025 or less in 2015; lower middle-income economies are those with GNI per capita between \$1,026 and \$4,035; and upper-middle income economies as those with a GNI per capita between \$4,036 and \$12,475. ONS annually updates the international tiered membership application in July to reflect changes to the World Bank Index classifications after the World Bank's fiscal year ends on 30 June.

Choose Your Community

Access to the ONS Communities are included in your membership and are a great way to find other members with like interests in a virtual online environment.

Members who visit communities.ons.org can meet fellow oncology nursing professionals within ONS who have similar cancer care interests, ask questions about pressing clinical issues, share experiences and expertise to solve problems, and teach others to ensure that patients receive the best possible care. And that's just the beginning of the possibilities of this member-driven, online forum.

Whether you have a few minutes a month or can dedicate some significant time, participating in the ONS communities helps us all advance excellence in oncology nursing and quality cancer care.
