ILNA POINTS REFERENCE GUIDE

Resources for OCN® Renewal

About ILNA

The Individual Learning Needs Assessment (ILNA) method is the certification renewal process launched in 2016 by the Oncology Nursing Certification Corporation. The enhanced approach helps to ensure that every certified nurse has current knowledge in the subject areas represented by the credential.

How it works

As a currently certified nurse, you are armed with your individualized requirements to renew your certification. You received this list either through a score report after you passed a certification test or through a learning needs assessment. The report identifies your knowledge strengths and areas of growth. To renew your certification, you'll need to complete professional development activities to strengthen your knowledge. You earn points for certification renewal upon completion of these activities. Detailed information about ILNA can be found by visiting www.oncc.org/ILNA.

ILNA POINTS FOR YOU, QUALITY CARE FOR YOUR PATIENTS

Pull your learning needs assessment and grab a highlighter. This guide is going to make life easier.

In this guide, you'll find the Oncology Nursing Society's (ONS's) educational offerings conveniently sorted by ILNA category, making it quick and easy to find the points you need to renew your certification. Each CNE opportunity listed combines seamlessly with your learning needs assessment to help fill knowledge gaps and ultimately improve patient outcomes. It's that simple.

Once you find a resource that interests you, visit www.ons.org/education/course-activities to learn more.

The ONS Member Advantage

ONS members enjoy free CNE offerings and reduced course pricing as a benefit of membership. Look for this icon **FREE CNE** Members throughout the guide to locate your free CNE.

Not an ONS member?

Join now at www.ons.org/join to get your free CNE and take advantage of many more membership benefits, like monthly journal subscriptions and access to the ONS community message boards.

This reference guide is current as of November 2017. ONS journal activities are valid for two years from time of release. Availability changes monthly. Visit www.ons.org/education/courses-activities to find current offerings.
